ONTARIO COLLECTIVE BARGAINING

AGREEMENT EXPIRATIONS

1992

FOREWORD

This is the twenty-fifth annual report of the Ontario Ministry of Labour on collective bargaining agreement expirations. It describes the extent of collective bargaining activity in Ontario for renewal of agreements scheduled to expire in 1992.

The report, derived from information in the Ministry's Collective Agreements Library as of December 31, 1991, identifies all 1992 bargaining situations known to the Ministry as of that date. It does not include situations that will result from recent or future certifications by the Ontario Labour Relations Board, or new agreements that had not been ratified when the report was completed.

The report consists of five tables. Part A of Table 1 shows the total number of all agreements expiring by industry and month of expiration; and Part B shows the number of employees who will be affected. Table 2 gives a distribution of the total expirations by industry and size of bargaining unit. Table 3 shows the total number of all agreements expiring and employees involved by union and month of expiration. Table 4 lists only those agreements covering 200 or more employees by month of expiration and Table 5 lists them by industry.

Appendix I lists the major agreements (those covering 1,000 or more employees) expiring in 1992. Appendix II explains the SIC (Standard Industrial Classification) used in Tables 4 and 5, and Appendix III defines the occupational group codes.

The report was prepared in the Office of Collective Bargaining Information, Industrial Relations Division, Ontario Ministry of Labour.

ONTARIO COLLECTIVE BARGAINING AGREEMENT EXPIRATIONS, 1992

Introduction

Collective bargaining activity in 1992 will be lighter in terms of the number of expiries but heavier in terms of the number of employees affected than the previous year. 3,276 agreements, covering 560,695 employees, are scheduled to expire during the year, compared to 4,157 agreements covering 554,618 employees in 1991. (See Tables 1A and 1B.)

The 1992 expiries represent 34% of the 9,692 agreements in the Ministry of Labour's Collective Agreements Library as of December 31, 1991 and affect 38% of the 1,477,031 total Ontario employees covered by agreements.

With respect to the number of employees affected, the upcoming negotiations will be concentrated in construction, education and related services, retail trade, local government and health and welfare services. These sectors account for 60% of the total number of employees covered by agreements expiring in 1992.

A major set of negotiations in the public sector will involve Ontario Hydro and approximately 20,000 employees represented by the Canadian Union of Public Employees (CUPE). In the private sector, negotiations will take place between Bell Canada and 12,000 employees represented by the Canadian Telephone Employees Union and between Great Atlantic and Pacific Company of Canada and 18,500 employees represented by either the United Food and Commercial Workers or the Retail, Wholesale and Department Store Employees Union. Other major negotiations are listed in Appendix I.

Economic Setting

Economic forecasts indicate that bargaining in 1992 will take place in a fragile but improving economic environment. The trend of the mid-eighties, characterized by strong growth in Ontario's economy (average annual growth was 6.1%), has been supplanted by negative real growth over the past two years. In 1990 and 1991 Ontario's real gross domestic product declined by an estimated 0.8% and 1.9% respectively. However, most economists believe growth

will return in 1992. The provincial government forecasts growth of 3.8% for the coming year.

The annual inflation rate, as measured by the Ontario Consumer Price Index, was 3.2% in November, down from its November 1990 rate of 4.7%. The national inflation rate declined from 5.0% in November 1990 to 4.2% in November 1991. Price increases, occurring mostly in early 1991, were primarily due to the impact of the federal Goods and Services Tax (GST). Over the remainder of the year, prices have remained relatively stable. The provincial government has forecasted continued decline in both the Ontario and national inflation rates for 1992.

The national unemployment rate was 10.3% in November. It has been above 10% since February, peaking in August at 10.6%. The unemployment rate in Ontario peaked at 10.2% in June and remained high throughout the rest of the year. November's rate was 9.6%, up 2.1% from November 1990's rate of 7.5%. Ontario's unemployment rate is expected to decline, but only marginally, to 9.3% in 1992.

Under collective agreements covering 200 or more Ontario employees, negotiated wage increases in settlements ratified in the first quarter of 1991 averaged 6.3% per year, declined to 5.1% in the second quarter, and to 4.9% in the third.

Pay equity and free trade will continue to influence collective bargaining in 1992. While CPI figures indicate that the immediate inflationary impact of the GST has been largely absorbed, it may also continue to influence bargaining in the coming year. However, given the current economic climate and job losses in the Ontario economy, job security provisions, including restrictions on layoffs and income protection for laid off workers, are likely to remain key issues in negotiations during 1992.

Monthly Activity

March, April and December have the largest number of contract expirations in 1992 and account for 46% of the total expirations. These three months contain 50% of the total number of employees expected to bargain in 1992. In terms of employees, April is the heaviest month, with 146,360 employees covered by 413 agreements. The April figures include 117,814 employees under 92 agreements in the construction sector. April alone accounts for 26% of employees involved in 1992 expirations.

Industry Activity

Non-manufacturing sector bargaining will account for 64% of all agreements expiring in 1992 and 78% of the employees covered. The major negotiations will take place in construction, education, retail trade, local government and health and welfare services. Together, these five industries account for 59% of the 2,103 agreements expiring in the non-manufacturing sector and 77% of the 439,088 employees covered by agreements in this sector. While construction and education and related services alone represent only 25% of the non-manufacturing expirations, they represent 51% of the non-manufacturing employees involved.

As was the case last year, key industries in the manufacturing sector in which bargaining will occur include transportation equipment, fabricated metals, food and beverage and electrical products. These four groups comprise 42% of manufacturing expirations and 49% of the employees covered by agreements in this sector.
